## Groundskeeping Volunteer

Northumberland Zoo is looking for dedicated volunteers to help our ground staff maintain and improve the areas between animal enclosures to contribute to, and enhance, the visitor experience.

We are looking for enthusiastic volunteers, who don't mind a little bit hard work and who would enjoy seeing the benefits of their efforts grow and mature into areas that are welcoming and appealing.

Previous groundskeeper experience is not required as training will be given.

Groundkeeper volunteers would be appreciated between 10am and 4pm and for the duration of the summer and autumn seasons.

Volunteering as a groundskeeper will be under the supervision of the Zoo Maintenance Manager and you may be working alongside the current team, individually or with other volunteers.

To express your interest, or find out more about becoming part of our team, please email [learning@northumberlandzoo.co.uk](mailto:learning@northumberlandzoo.co.uk) detailing when you would like to volunteer, as well as any skills or experience you feel may be beneficial to the zoo.

We look forward to chatting with you soon.
