

Design your own Unique Animal

Design a new animal that is unique and draw a picture in the box below. Label your animal, pointing out all of the unique features.

Explain the different unique traits of your animal and why they are important. A trait is a type of feature. For example: big ears, long legs, spotted fur.

Unique Trait	Why is it good for the animal?

Bonus Question: What habitat does your animal live in? Will their traits match their habitat?

Hint: If your animal has thick fur, would they live in the hot desert?

We would love to see your work!
